What is a solar air conditioner?

Deye’s innovative solar air conditioner series represents a breakthrough in sustainable cooling technology, combining eco-friendly operation with powerful performance. Our solar air conditioners are designed to significantly reduce electricity costs while providing reliable cooling even in the most challenging environments.

What is a solar AC system?

Most solar AC systems are hybrid, meaning they use traditional electricity sources in addition to solar power. Hybrid systems are more popular in very hot environments where it’s necessary to run the AC at night (when there’s no sun) to keep comfortable. For complete off-the-grid air conditioning, there are solar-only systems.
