

1000 wh power station factory in Pretoria

Overview

Who owns Pretoria West power station?

Unit-level coordinates (WGS 84): This ownership tree is part of the Global Energy Ownership Tracker, a project of Global Energy Monitor. Pretoria West power station is a coal-fired power plant with a total capacity of 180 MW. The plant was built in 1952, and is owned by Tshwane Electricity Division.

How many MW is Pretoria West power station?

Pretoria West power station has a peak capacity of 180.0 MW which is generated by Coal. The power plant was commissioned in 1952 and started energy production the same year. The data for generated gigawatt hours between 2013-2019 is incomplete.

Could Pretoria West be converted into a waste-to-energy plant?

The plan to convert the Pretoria West power station into a waste-to-energy plant is interesting. These power plants incinerate non-recyclable waste, often municipal solid waste, to generate heat. The heat produced is then used to generate steam, which, in turn, drives a turbine connected to a generator to produce electricity.
