

1MWh Mobile Energy Storage Container for Drilling Sites

Overview

This unit combines a 1MWh lithium battery system with a 480kW high-speed charging output, making it perfect for: Towable Design + Lifting Points: Move it with a truck or crane it onto site. What is a 1MWh energy storage system?

The 1MWh Energy Storage System consists of a Battery Pack, a Battery Management System (BMS), and an AC Power Conversion System (PCS). We can tailor-make a peak shaving system in any Kilowatt range above 250 kW per module. For applications over 1MW these units can be paralleled.

Features: Features of the Battery Management System (BMS):.

What is pknergy 1MWh battery energy solar system?

The PKENERGY 1MWh Battery Energy Solar System is a highly integrated, large-scale all-in-one container energy storage system. Housed within a 20ft container, it includes key components such as energy storage batteries, BMS, PCS, cooling systems, and fire protection systems.

What is the capacity of pknergy 20ft container 1MWh battery?

PKENERGY's 20ft container 1MWh battery has a rated capacity of 1000kWh. It uses LFP (Lithium Iron Phosphate) batteries and is designed to have a lifespan of over 10 years. The system can operate completely off-grid.

What is a containerised energy storage system (BESS)?

They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes.
