

# **200kW Photovoltaic Container Used in Kathmandu Data Center**

## Overview

---

What is a 200kW solar energy system?

**Unmatched Power Generation:** Discover unparalleled energy efficiency with our 200kW all-in-one solar energy system. Designed to revolutionize power generation, this system harnesses the abundant energy of the sun to provide a sustainable and reliable power source for your large-scale projects.

What is a 200KW all-in-one solar system?

**Seamless Integration and Scalability:** Our 200kW all-in-one system offers seamless integration of solar panels and LFP battery storage, providing a comprehensive energy solution for your business or industrial needs. With scalability in mind, this system can be easily expanded to accommodate future growth and energy requirements.

What is a 200kwh air-cooled energy storage system?

Say goodbye to worrying about power outages or fluctuating energy costs – with our state-of-the-art system, you're in control. The 200kWh Air-Cooled Energy Storage System (Model: FC-W-200kWh-100kW) internally integrates DCDC energy storage/photovoltaic-side voltage transformation, supporting connection to photovoltaic systems.

Why should you choose a modular energy storage container?

Advanced monitoring systems and IoT integration ensure optimal performance and remote management capabilities. The modular design allows for easy expansion, with the option to expand the battery storage system by 100 - 500kwh, making our energy storage container perfect for meeting growing energy demands.
