

# 2250v solar inverter

## Overview

---

What is a 2250 watt inverter generator?

The WEN 2,250 Watt Inverter Generator provides clean energy, free of voltage spikes and drops, without all the noise of a regular generator. Produce up to 2250 surge watts and 1800 rated watts of power.

Why should you choose EGT 2250 microinverter?

The microinverters have IP67 protection, resisting water and dust, ensuring robust and safe installations. With independent MPPTs and advanced heat dissipation technology, the EGT 2250 MICRO maximizes energy generation, even in shaded or high-temperature conditions.

What is a high-power solar microinverter?

High-power solar microinverter, more robust and with simplified installation. With integrated Wi-Fi, it is possible to monitor energy generation in real time through the Intelbras app, in addition to analyzing each module individually.

Is the EGT 2250 micro registered?

With more than 25 tests carried out to ensure the quality of the microinverter, the EGT 2250 MICRO is registered in accordance with INMETRO Ordinance No. 140/2022. Do you need help?
