

# 255kw solar inverter

## Overview

---

What is a 125-255kw PV string inverter?

125-255kW three-phase utility-scale 1500 Vdc PV string inverters have 9 MPPT (125K) or 12 independent MPPTs (185 & 255K) with high-rated dc inputs that support "Y" type connection in DC side, up to 30A per DC input . Maximum string input current 15A, support bifacial modules access. Supports anti-PID function to improve system efficiency.

What is a Solis 255k-ehv-5g solar inverter?

Powerful solution for large solar installations The Solis 255K-EHV-5G grid-tied solar inverter is a high-tech device ideal for large-scale commercial and industrial projects. With a rated power of 255 kW, three-phase connection, and 14 independent MPPTs, this model ensures maximum energy output even under the most challenging conditions.

How many MPPTs does a PV string inverter have?

185-255kW three-phase utility-scale 1500 Vdc PV string inverters have 9 MPPT (125K) or 12 independent MPPTs (185 & 255K) with high-rated dc inputs that support "Y" type connection in DC side, up to 30A per DC input . Maximum string input current 15A, support bifacial modules access.

How much does a 5kw solar inverter cost?

For example, decent-quality 5kW solar inverters, which can support up to 6.6kW of panels, start at \$1,000 for budget single-phase models (e.g., Sungrow, Goodwe, or Solis) and up to \$2,000 for premium single-phase models (e.g., Fronius or SMA). If you want a 3-phase, 5kW inverter; add around \$400 to those prices.
