

# **5G base stations in containers in Brussels**

## Overview

---

Is 5G coming to Brussels?

Belgium's capital city Brussels is finally on course to launch 5G services, with the service set to go live this September. Up until now, the city has effectively blocked the service from launching in the city due to its strict radiation rules, even halting a 5G pilot in 2019 due to concerns.

Where is 5G available in Europe?

Brussels, however, ranks last, with high-quality 5G availability of just 25% - far below the European benchmark. On top of this, Brussels networks fall behind in both DL and UL speeds, with particular poor performance in average downlink speeds, reaching up to 67% lower than Stockholm (Best-in-Class).

Which 5G operators are delivering the best results in Brussels?

Brussels averaged 36% of 5G registration across tested operators, Proximus and Orange achieved results above the average with 46.24% and 43.91% respectively, as Telenet lagged significantly behind at 18.17%.

Should Brussels accelerate its 5G deployment strategy?

With the EU Digital Decade 2025 targets aiming for uninterrupted 5G coverage across all urban areas and major transport routes, Brussels must accelerate its 5G deployment strategy to avoid lagging behind European leaders.
