

Addis Ababa Off-Grid Solar Container 50kW

Overview

What is an off grid solar power system?

Off grid solar power system doesn't connect to the power grid. In general, it includes solar panels, charger controller, batteries and inverter. This system will store the solar power into the batteries, batteries energy will be converted the electricity power to supply the appliances working through the inverter.

What is Maxbo's off-grid Solar System?

A remote village, previously dependent on diesel generators, now enjoys 24/7 electricity thanks to Maxbo's 50kW off-grid solar system. The system powers homes, a health clinic, and a local school, improving quality of life and enabling sustainable community growth.

What is a 50kw Solar System?

In rural areas where access to the main power grid is limited, Maxbo's 50kW solar systems serve as reliable energy sources, providing the necessary power for residential homes, schools, health clinics, and community centers. These systems bring modern amenities to off-grid locations, enhancing quality of life and supporting community development.

What is a 5kw solar storage system?

The 5kw solar storage system was installed in 2018. We were initially attracted to the idea of using lithium batteries at night while solar power supply our house during the day. In addition, it can also provide seamless grid failure protection.
