

Automatic Photovoltaic Folding Container Used at Ecuadorian Drilling Sites

Overview

What is Huijue's folding solar PV container?

Huijue Group newly launched a folding photovoltaic container, the latest containerized solar power product, with dozens of folding solar panels, aimed at solar power generation, with a capacity for mobility to provide green energy all over the world. The Solar PV container is a mobile, plug-and-play solar energy solution.

What are containerized mobile foldable solar panels?

Containerized mobile foldable solar panels are an innovative solar power generation solution that combines the mobility of containers with the portability of foldable solar panels, providing flexible and efficient power support for a variety of application scenarios.

What is a folding solar photovoltaic container?

The folding solar photovoltaic container developed by the Huijue Group represents a pioneering, flexible, and effective solution in energy provision. Besides meeting the demand of energy in different scenarios, this container will enable optimized utilization of resources by introducing module design and a powerful electricity generation system.

How does solarfold work?

With Solarfold, you produce energy where it is needed and where it pays off. The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, enables rapid and mobile operation.
