

Berlin Portable Backup Power Supply Manufacturer

Overview

What is a power supply & a backup system?

Typical applications are Uninterrupted Power Supply (UPS) – systems as to be found in data centers, telecommunication installations or hospitals and airports. Further applications are backup systems used in power plants or industry and infrastructure systems.

Who is German power?

With the experience of a specialist in power supply systems for decades, we develop and produce smart power supplies in small and large quantities, from standard products to individual special designs. Welcome to German Power! Are you looking for smart solutions for your power supply?

No problem.

Are the prototypes of the power supply EMC-optimized?

The prototypes of the power supply are EMC-optimized by us. On request we compile all necessary documents for safety approval (EN, UL, CSA, IEC) and accompany the certification. We accompany the series production and its tests at our cooperation partners. Testing and final assembly is done in-house or at the assembler.
