

Can Spanish solar container communication stations use 5g

Overview

What does the Spanish Digital Agenda say about 5G?

To achieve the digital connectivity objectives contained in the Spain Digital Agenda, the Spanish Government published the Digital Infrastructures and Connectivity Plan and the Strategy for the promotion of 5G technology in December 2020. The plan outlines actions to cover 100% of the population with more than 100 Mbps by 2025.

What are Spain's strategic priorities for 5G?

Digital connectivity and 5G rollout are among the ten strategic priorities in Spain. The agenda aims to extend ultrafast network coverage to the entire population and prepare 100% of the radio spectrum for 5G by 2025.

How a 5G network is achieving 100 Mbps coverage?

Regarding digital connectivity, it aims to guarantee 100 Mbps coverage for the entire population by closing the digital gap between urban and rural areas. Moreover, it seeks to advance 5G deployment by preparing the entire radio spectrum accordingly.

What is a 5G strategy?

The Strategy for the promotion of 5G technology complements the national connectivity plan to account for the different level of maturity and transformational impact of 5G compared to, e.g., fibre.
