

Can genuine inverters be used at home

Overview

Yes, you can use an inverter to power your house. It converts DC power to AC power for home use. An inverter offers a reliable way to power your home during outages. Do I need an inverter?

An inverter is necessary when you want to run a device or appliance meant to operate from the main power line using only batteries. Inverters are increasingly popular with solar power systems, which provide a low voltage DC supply for ordinary appliances that operate on 110V or 220V AC.

Are inverters suitable for home use?

These inverters are suitable for home use. We offer 2 systems (12v or 24V) and then have provided different battery options to suit your budget. The more cost effective option comes with the Royal 100Ah Standard Deep Cycle Batteries.

How to choose a home inverter?

Technology: Pure sine wave and MPPT inverters are costlier. Brand and Warranty: Trusted brands with longer warranties will have a higher price. Additional Features: LCD screens, fast charging, Wi-Fi monitoring, etc., also add to the cost. When looking for a home inverter price, do not just go by the cheapest model.

What is an inverter used for?

An inverter is made for running basic things like fans, lights, a TV, and a computer. Big devices like AC, water heater, or washing machine need a lot of power and may damage the inverter if used. Q2. How to choose an inverter for a home if I have too many appliances?
