

Compressed air energy storage project

Overview

What is a compressed air energy storage project?

A compressed air energy storage (CAES) project in Hubei, China, has come online, with 300MW/1,500MWh of capacity. The 5-hour duration project, called Hubei Yingchang, was built in two years with a total investment of CNY1.95 billion (US\$270 million) and uses abandoned salt mines in the Yingcheng area of Hubei, China's sixth-most populous province.

Will China's first large-scale compressed air energy storage project be commercialized?

A state-backed consortium is constructing China's first large-scale compressed air energy storage (CAES) project using a fully artificial underground cavern, marking a major step in the technology's commercialization.

What is compressed air energy storage (CAES)?

Compressed air energy storage (CAES) is an effective solution for balancing this mismatch and therefore is suitable for use in future electrical systems to achieve a high penetration of renewable energy generation.

Can compressed air energy storage improve the profitability of existing power plants?

Linden Svd, Patel M. New compressed air energy storage concept improves the profitability of existing simple cycle, combined cycle, wind energy, and landfill gas power plants. In: Proceedings of ASME Turbo Expo 2004: Power for Land, Sea, and Air; 2004 Jun 14-17; Vienna, Austria. ASME; 2004. p. 103-10. F. He, Y. Xu, X. Zhang, C. Liu, H. Chen

Compressed air energy storage project

[Overview of compressed air energy storage projects and ...](#)

Nov 30, 2022 · Energy storage (ES) plays a key role in the energy transition to low-carbon economies due to the rising use of intermittent renewable energy in electrical grids. Among the ...

[World's largest compressed air energy storage project ...](#)

May 16, 2024 · Zhongchu Guoneng Technology Co., Ltd. (ZCGN) has switched on the world's largest compressed air energy storage project in China. The \$207.8 million energy storage ...

[World's Largest 350-MW Salt Cavern Compressed Air Energy Storage](#)

Oct 25, 2022 · The Tai'an 2×300-megawatt compressed air energy storage innovation demonstration project broke ground on Sept 28 in East China's Shandong Province. It is ...

[China unveils world's largest compressed air energy storage ...](#)

Dec 24, 2024 · China breaks ground on world's largest compressed air energy storage facility
The second phase of the Jintan project will feature two 350 MW non-fuel supplementary CAES ...

[China's innovative 300 MW compressed air energy storage project](#)

Feb 18, 2025 · A Chinese state-led consortium is developing a 300 MW/1200 MWh compressed air energy storage (CAES) project in Xinyang, Henan province, featuring an entirely artificial ...

[China's innovative 1.2 GWh compressed air energy storage project](#)

Feb 14, 2025 · A state-backed consortium is constructing China's first large-scale compressed air energy storage (CAES) project using a fully artificial underground cavern, marking a major ...

[World's first 300 MW compressed air energy storage plant ...](#)

Jan 9, 2025 · The world's first 300-megawatt compressed air energy storage (CAES) demonstration project, "Nengchu-1," has achieved full capacity grid connection and begun ...
