

Construction of container room base station in New Zealand

Overview

What is the smallest container-mounted shelter in NZ?

The smallest container-mounted shelter in the SmartShelters range is 6 metres long (the length of a standard 20-foot shipping container) with a 6-metre span. Our largest container shelter in NZ is 45 metres long. Container canopies can be at any length; typically in multiples of 6m to align with the shipping containers that serve as the supports.

Where can I buy a container shelter in New Zealand?

SmartShelters offers the widest range of container shelters and canopies in New Zealand — with spans from 6m to 45m wide, any length, and multiple height options. As the only NZ manufacturer offering this level of quality and customisation for container domes, we make it easy to tailor your shelter to your exact requirements.

What is a container-mounted shelter?

A container-mounted shelter is a versatile structure that combines a durable fabric canopy with standard shipping containers as its base. The containers act as strong, stable anchor points, while the domed shelter spans across the top, creating a covered space that's protected from the elements.

Do you supply stand-alone shipping containers to the New Zealand market?

We also supply a wide range of stand-alone shipping containers, including all sizes and configurations, to the New Zealand market. We saw a need in the New Zealand market for a strong, durable and secure structure which can be larger than a shipping container alone.
