

# Copenhagen rooftop solar power generation system

## Overview

---

When will a solar power plant be built in Denmark?

The establishment of the construction site has just begun and is expected to be completed in December 2024. Solar power plants with a similar production size are usually only seen carried out as solar farms on the ground here in Denmark, and you have to look abroad to find similar projects carried out on industrial roofs.

Will Gigafactory power a new solar plant in Denmark?

But even in comparison with the largest projects seen abroad, including Tesla's Gigafactory in Nevada, the electricity production from the solar plant in Horsens, Denmark, will exceed the existing installations in the world.

Is solarfuture the largest rooftop solar power plant ever?

To be honest, I had never heard of the company SolarFuture before, but it certainly grabbed my attention when I learned it was going to build the largest rooftop solar power plant ever, less than 100 miles from where I live. SolarFuture was established in 2014 with a focus on profitable solar cell solutions for industry and agriculture.
