

Costa Rica Industrial solar container battery

Overview

Two 40-foot- MTU battery containers from Rolls-Royce with a total storage capacity of 4,275 kWh and an output of 1,500 kVA are used to meet peak electricity demand, increase the company's own use of solar power, and relieve pressure on the public grid. 690 photovoltaic panels with 255kWp capacity have been installed by solar provider Swissol SA, Alajuela, Costa Rica, on covered parking spaces at Proquinal and connected to the battery containers to support the system. Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Where are solar power plants made?

Headquartered in Shanghai with 50,000+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.
