

Dublin solar container lithium battery bms characteristics manufacturer

Overview

What are Lithium Balance BMS solutions?

LiTHIUM BALANCE BMS solutions include both customized and off-the-shelf battery management systems for an extensive range of lithium battery setups. Find out more about the features and technical details of our off-the-shelf solutions, including datasheets and product presentations about each, by clicking the boxes below.

What is a battery management system (BMS)?

Voltaplex is proud to design and manufacture battery management systems (BMS) that optimize lithium-ion battery packs' safety, reliability, and performance. We engineer our solutions for seamless integration across various industries, including robotics, automotive, and medical devices.

What is inside a voltaplex BMS battery management system?

Inside every Voltaplex BMS battery management system is a purpose-built core. This core contains microcontrollers, precision voltage sensors, temperature monitors, balancing circuits, and communication protocols tailored to you and your industry's needs.

What is voltaplex BMS?

Industrial Energy Storage: Voltaplex's BMS maintains safety and longevity in backup systems and off-grid power units by monitoring high-capacity lithium-ion battery management systems with scalable, remote diagnostics.

Aerospace and Defense: Our BMS design provides rugged, high-reliability power for drones, avionics, and tactical gear.
