

EK Micro Inverter Newsletter

Overview

How big is the micro inverter market in 2025?

The micro inverter market is projected to grow from USD 2.3 billion in 2025 to USD 5.7 billion by 2035, at a CAGR of 9.6%. Single Phase will dominate with a 38.6% market share, while standalone will lead the connectivity segment with a 41.9% share.

What are the emerging micro inverter market trends?

Emerging micro inverter market trends indicate that the standalone micro inverter segment will grow at a relatively higher CAGR during the forecast period, owing to their compact size and ability to be installed in remote areas without grid connectivity. In fact, they have become highly sought-after products in residential buildings.

Is North America a promising market for micro inverters?

Regionally, North America, spearheaded by the USA, is emerging as a promising market for micro inverters owing to the presence of leading market players like Enphase Energy, increasing government investments in expanding solar infrastructure, and availability of advanced micro inverter products.

Is the micro inverter market growing in Japan?

With the rapid transition towards renewable energy resources, robust urbanization, the growing popularity of PV inverters, and the heavy presence of leading micro inverter manufacturers, the micro inverter market in Japan is set to grow at a robust pace during the forecast period between 2025 to 2035.
