

Eastern European Energy Storage Container

Overview

What is the largest energy storage facility in Eastern Europe?

The project, the largest in Eastern Europe, has been realised by Solarpro, a company specialising in energy generation and storage solutions across Europe. The facility became operational in early June 2024, following the installation of Hithium's 16 energy storage containers, each with a 3.44MWh capacity.

What is energy storage Europe?

EASE will now be known as the Energy Storage Europe association, with a new identity designed to give the sector a stronger visibility. This transformation marks a significant milestone as the association approaches its 15th anniversary and reflects the central role that energy storage now plays in Europe's energy future.

What is energy storage Europe Association?

Energy Storage Europe Association is actively shaping the legal and R&D funding framework for energy storage at EU level. Members gain direct influence in the European decision-making process. Members benefit from the Energy Storage Europe Association's expertise and technical know-how, and they can participate in EU-funded research projects.

What is the energy storage Europe rebranding?

The European Association for Storage of Energy (EASE) today announced a rebranding to better reflect the rapid evolution of the energy storage role in the energy storage system. EASE will now be known as the Energy Storage Europe association, with a new identity designed to give the sector a stronger visibility.
