

Energy Storage Power Station Industry Database

Overview

What is the energy storage database?

The database includes three different approaches: Energy storage technologies: All existing energy storage technologies with their characteristics. Front of the meter facilities: List of all energy storage facilities in the EU-28, operational or in project, that are connected to the generation and the transmission grid with their characteristics.

What is behind the meter energy storage?

Behind the meter energy storage: Installed capacity per country of all energy storage systems in the residential, commercial and industrial infrastructures. The purpose of this database is to give a global view of all energy storage technologies. They are sorted in five categories, depending on the type of energy acting as a reservoir.

Why should energy storage technologies be deployed?

An appropriate deployment of energy storage technologies is of primary importance for the transition towards an energy system. For that reason, this database has been created as a complement for the Study on energy storage - contribution to the security of the electricity supply in Europe. The database includes three different approaches:.

How can energy storage support the global transition to clean electricity?

To support the global transition to clean electricity, funding for development of energy storage projects is required. Pumped hydro, batteries, hydrogen, and thermal storage are a few of the technologies currently in the spotlight.

Energy Storage Power Station Industry Database

[Data and Tools , Energy Storage Research , NLR](#)

6 days ago · NLR offers a diverse range of data and integrated modeling and analysis tools to accelerate the development of advanced energy storage technologies and integrated systems.

[DOE Global Energy Storage Database -- ...](#)

Jun 11, 2024 · The DOE Global Energy Storage Database provides research-grade information on grid-connected energy storage projects and relevant state and federal policies. All data can be ...

[Global Energy Storage Power Station Market Research ...](#)

Jan 30, 2025 · The Energy Storage Power Station market size, estimations, and forecasts are provided in terms of output/shipments (K Units) and revenue (\$ millions), considering 2024 as ...

[CNESA Global Energy Storage Market Tracking](#)

Nov 16, 2024 · China market: Pumped Hydro Storage share falls below 50% for the first time. Non-hydro Storage accumulative installations surpass 50GW for the first time. According to ...

[Database of the European energy storage technologies and...](#)

Dec 4, 2025 · Behind the meter energy storage: Installed capacity per country of all energy storage systems in the residential, commercial and industrial infrastructures. The purpose of ...
