## Overview

---

Why should you choose an energy storage hybrid PCs cabinet?

**Reliability:** STS ensures uninterrupted power supply during grid transitions.  
**Scalability:** Modular design allows easy expansion as energy needs grow. The Energy Storage Hybrid PCS Cabinet empowers businesses and industries to achieve sustainable energy management while adapting to changing operational demands.

What is Delta Battery energy storage system (BESS)?

Delta's battery energy storage system (BESS) utilizes LFP battery cells and features high energy density, advanced battery management, multi-level safety protection, and a modular design. Available in both cabinet and container options, it provides a complete and reliable energy solution.

What is a power conditioning system (PCS)?

Delta's Power Conditioning Systems (PCS) are bi-directional inverters designed for energy storage systems. Ranging from 100 kW to 4 MW, our PCS comply with global certifications and seamlessly integrate with major battery brands and various battery technologies.

Which energy storage solutions does Delta offer?

Delta's energy storage solutions include the All-in-One series, which integrates batteries, transformers, control systems, and switchgear into cabinet or container solutions for grid and C&I applications. The streamlined design reduces on-site construction time and complexity, while offering flexibility for future expansion.
