

# **Finland HJ Communication 5g fast installation base station project**

## Overview

---

What is 5G test network Finland?

5G Test Network Finland (5GTNF) consortium offers an integrated technological environment for research and trials. The aim of the 5G-FORCE project is to study and develop 5G technology and the related 5G test network environment for the needs of research and development projects of various verticals.

What is the 5g-safe-Plus project?

The 5G-Safe-Plus project aims to prevent traffic accidents and avoid casualties by delivering 5G-enabled time-critical road safety services to vehicles. To ensure smooth transition to a “5G world” and to maximize the reliability, the project considers hybrid network environments, including 4G/LTE, 5G, ITS-G5 and satellite communication.

What is 5gkiri?

5GKIRI was a 5G network project between eight cities, the aim of which was to ensure the cities’ ability to support the construction of 5G networks through more agile and nationally integrated processes.

What is 5gfinlog?

The main aim of the 5GFINLOG (5G Future Innovation Platform for Logistics) is to create a new kind of 5G logistics and port testing and innovation platform for the Port of HaminaKotka.
