

High-Temperature Resistant Mobile Energy Storage Container for Catering Industry

Overview

What is a thermal insulated food container?

A simplified supply chain using our thermal insulated food containers offers both an environmental and cost-effective catering solution. Compatible with ATLAS catering equipment it removes the need to use dry ice providing a safer catering operation, whilst maintaining food safety requirements.

What is a Feurer insulated container?

FEURER insulated containers offer the ideal solution for the transportation and storage of temperature-sensitive products. Whether food, medical products or sensitive goods - our insulated containers ensure reliable temperature maintenance to keep your products fresh and safe at their destination.

Why should you lease insulated food containers?

Access to a global network means greater availability and flexibility for airline, rail customers and catering companies to lease insulated food containers to keep their food frozen, or chilled at $<+8^{\circ}\text{C}$ for 24 hours. Our products have been in service for over 7 years with key global airlines.

How do tower temperature-controlled insulated catering boxes simplify your supply chain?

Tower temperature-controlled insulated catering boxes simplify your supply chain by removing the need to create dedicated networks at each station. A simplified supply chain using our thermal insulated food containers offers both an environmental and cost-effective catering solution.
