

High-end new energy and energy storage industry base project

Overview

A 500 MW / 2,000 MWh standalone BESS in Tongliao, Inner Mongolia, has begun commercial operation following a five-month construction period, reflecting China's accelerating rollout of large-scale storage to firm and integrate high penetrations of wind and solar generation. How will China promote the new-type energy storage manufacturing sector?

BEIJING, Feb. 17 -- Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part of efforts to accelerate the development of emerging industries and the country's modern industrial system.

How will China's new-energy storage industry grow by 2027?

Photo: VCG China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to expand leading enterprises by 2027, enhance innovation and competitiveness, and achieve high-end, intelligent and green industry growth.

What drives energy storage project development?

Globally, energy storage project development is increasingly driven by the utility-scale segment, with mandates and targeted auctions driving gigawatt-hour projects in markets like China, Saudi Arabia, South Africa, Australia and Chile.

What is China's new energy storage plan?

The plan said that the new-energy storage industry is a key source of support for advancing the construction of a manufacturing powerhouse and promoting the efficient development and utilization of new-energy resources. By 2027, China aims to cultivate three to five leading enterprises in the ecosystem.

High-end new energy and energy storage industry base project

China powers up nation's largest standalone battery storage project

3 days ago · A 500 MW/2,000 MWh standalone battery energy storage system (BESS) in Tongliao, Inner Mongolia, has begun commercial operation following a five-month construction ...

[Energy storage poised to fuel China's growth- Xinhua](#)

Jan 24, 2025 · Megapack is an electrochemical energy storage device that uses lithium batteries, a dominant technical route in the new-type energy storage industry. Tesla's VP Tao Lin noted ...

[China's Largest Grid-Forming Energy Storage Station ...](#)

Apr 9, 2024 · This project marks the first successful application of grid-forming technology at the "Desert, Gobi and Barren Land" new energy base, pioneering a new application scenario for ...

[Economic Watch: China's new energy storage capacity ...](#)

Jan 24, 2025 · "New energy storage plays an essential regulatory role in the new power system, significantly promoting the development and consumption of renewable energy," Bian noted. ...

[China's largest standalone battery storage project powers up](#)

4 days ago · A 500 MW / 2,000 MWh standalone BESS in Tongliao, Inner Mongolia, has begun commercial operation following a five-month construction period, reflecting China's ...

[New energy storage to see large-scale development by 2025](#)

Mar 2, 2022 · China aims to further develop its new energy storage capacity, which is expected to advance from the initial stage of commercialization to large-scale development by 2025, with ...

[New Energy Storage Technologies Empower Energy ...](#)

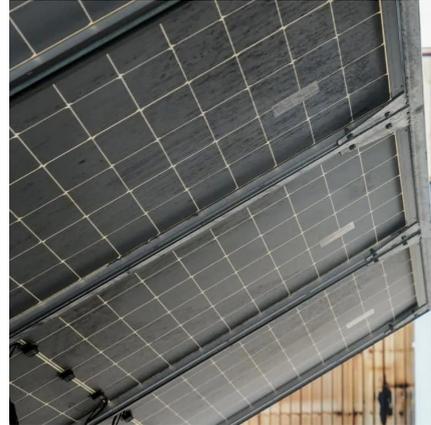

Nov 15, 2025 · As the new energy industry accelerates, countries have high hopes for new energy storage technologies as a solution to improve energy efficiency and safety. At the same time, ...

China's energy storage capacity rises to support clean energy ...

BEIJING, July 31 -- China's energy storage capacity is expanding to facilitate the utilization of growing renewable power amid the country's efforts to advance its green energy transition. ...

[China to boost new-energy storage manufacturing industry....](#)

Feb 17, 2025 · China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to expand leading enterprises by 2027, ...

[China unveils measures to bolster new-type energy storage ...](#)

Feb 17, 2025 · Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part of efforts to accelerate the development of ...

[Global Energy Storage Growth Upheld by New Markets](#)

Jun 18, 2025 · The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, ...

[After the lithium explosion accident at Dahongmen, Beijing ...](#)

Jun 19, 2025 · On November 18th, the People's Government of Beijing publicly released the "Beijing Municipal Implementation Plan for the Development of New Energy Storage Industry ...

[2 new energy projects in Zhuhai to speed up local ...](#)

Jun 8, 2023 · One such project is the over 2-billion-yuan (\$281-million) new energy storage industry base in the Zhuhai National Hi-Tech Industrial Development Zone (Tangjiawan), ...

[Highstar's Annual 6GWh Energy Storage Battery Base Project ...](#)

During the project negotiation process, the company deeply felt the determination and courage of Doumen District and Fushan Park to seize the current opportunities of explosive and fission ...

[New energy storage industrial project lands in Baiyun](#)

Sep 3, 2025 · The creation of the National New Energy Storage Innovation Center, combined with the influx of top enterprises and research institutions, is quickly forming an industrial cluster. ...

[Eight departments issue documents to promote high-quality ...](#)

Feb 18, 2025 · Xinhua News Agency, Beijing, February 17 (Reporter Zhang Xiaojie and Zhang Xinxin) The reporter learned from the Ministry of Industry and Information Technology on the ...

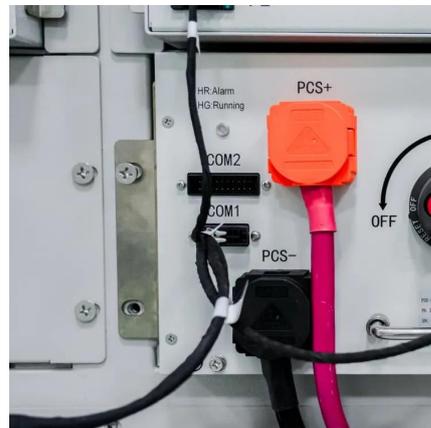

[China to develop high-quality new energy in new era](#)

May 30, 2022 · To that end, China will focus on building major wind power and photovoltaic power stations in desert areas, integrate new energy exploitation and utilization with rural ...

[China National Energy Administration Released Official...](#)

Aug 3, 2025 · The China New Energy Storage Development Report 2025 represents a major milestone in the institutionalization of NES planning and governance in China. By quantifying ...

[Full text: China's Energy Transition . english.scio.gov.cn](#)

Aug 29, 2024 · The novel energy storage projects in China has a maximum output power of 31,390 MW and a total energy storage capacity of 66,870 MWh, with an average storage time ...
