

Huawei energy storage product finished product standards

Overview

Does Huawei's fire-free energy storage system redefine safety?

Abstract: With the battery pack-level thermal runaway control, Huawei's fire-free energy storage system (ESS) redefines safety. [Shenzhen, China, December 24, 2024] Huawei Digital Power and TÜV Rheinland jointly completed ESS safety tests on Huawei's Smart String & Grid Forming ESS Platform (LUNA2000-4472 series and LUNA2000-215 series).

What is Huawei digital power?

With safety as its top priority, Huawei Digital Power is driving the healthy and sustainable development of the energy storage industry, and making valuable contributions to the creation of clean, low-carbon, safe, and efficient new power systems.

What is energy storage safety classification?

These efforts aim to ensure the high-quality and healthy growth of the energy storage industry. The safety classification comprises three levels: Level 1 (Basic): The ESS complies with basic laws, regulations, and standards, meeting the safety requirements for market admission.
