

Irish glass solar modules

Overview

Which Solarwatt modules are available in Ireland?

Now available in Ireland, these modules come in both glass-glass and glass-foil configurations. The SOLARWATT glass-glass modules, including the bifacial half-cell SOLARWATT Panel vision M 5.0, come in various styles and boast a durable 35mm aluminum frame, designed to withstand severe weather and mechanical stresses.

Which solar panels are most efficient in Ireland?

Glass On Glass Are The Most Efficient Solar Panels On The Irish Market. Our glass-glass modules are sourced from renowned manufacturers and suppliers such as Eurener Spain.

What is a glass-on-glass solar module?

Eurener's glass-on-glass modules offer cutting-edge protection for the delicate power-generating solar cells. These modules incorporate two transparent panels, each with a thickness of 2 x 2 millimeters, which are securely laminated and fused together.

What is the difference between glass and plastic solar modules?

Glass/Glass modules withstand air and moisture and offer best cell protection, while plastic backsheets of glass/foil modules become porous. The Glass/Glass composite protects solar cells against micro cracks and thus ensures long-term operating life of 40 years and more.
