

Jerusalem esg energy storage project

Overview

How many high-voltage energy storage projects are there in Israel?

To support this transition, Israeli network operator Nega Company ran a tender in July 2024 which attracted offers from 11 bidders for the construction and operation of 29 high-voltage energy storage projects, totaling approximately 4 GW with each project offering a storage capacity for at least four hours.

Does Enlight have a grid connection in Israel?

Enlight has secured a grid connection for 300 MW via two projects in Israel, which will add between 1,300 to 1,900 MWh of energy storage to the grid.

How many mw can a battery store in Israel?

Israeli renewable energy developer Enlight has won grid connection rights for 300 MW of battery storage capacity in a national tender, enabling the construction of systems that can store between 1,300 and 1,900 MWh of energy.

How much does it cost to build a storage facility in Israel?

The two facilities – Neot Smadar and Ohad in southern Israel – will operate under regulated tariffs for five years before gaining merchant market access. The projects must begin operations by 2028, with construction costs estimated at \$210-250 million. This latest award accounts for 20% of the capacity allocated in Israel's first storage tender.
