

# **Kazakhstan energy storage cabinet production equipment**

## Overview

---

The main equipment includes energy storage air power cabinet loading, automatic box entry, manual water cooling host/main control cabinet entry, manual screw tightening/grounding copper bar installation, manual installation of water cooling pipes, air-cooled low-voltage connections, manual installation of low-voltage water cooling connections, installation of low-voltage grounding copper bars, manual installation of BMS air-cooled cover plates, tightening traceability, high-voltage connections, fixed cutting of ties, manual airtightness testing, manual liquid injection station, EOL testing & performance testing, automatic offline of OK/NG cabinets, and other equipment.

## Kazakhstan energy storage cabinet production equipment
