

Kitega Smart Photovoltaic Energy Storage Container DC

Overview

How does SmartEnergy & DC work?

Depending on the installed PV capacity and battery size a complete autonomy is almost possible. The SmartEnergy + DC systems achieve a high system efficiency thanks to the DC coupled PV generator. In case of an blackout the system remains fully functional and ensures an uninterrupted power supply.

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

Kitega Smart Photovoltaic Energy Storage Container DC
