

Kyiv energy storage power supply quotation

Overview

How many MWh will Ukraine's energy storage project provide?

The project is split between six energy storage sites across Ukraine and will provide 400 MWh of dispatchable energy - enough to supply short-term power for 600,000 homes. The project will be the biggest operational energy storage portfolio in Eastern Europe at the time of commissioning.

Why is Ukraine investing €140 million in energy storage?

The €140 million total investment aims to enhance power grid stability, bolstering Ukraine's energy security and independence. The project will be the biggest operational energy storage portfolio in Eastern Europe at the time of commissioning.

How many energy storage plants are there in Ukraine?

The six energy storage plants will be located at multiple sites across Ukraine, with capacities ranging from 20 MW to 50 MW and a total capacity of 200 MW. Together, they will store up to 400 MWh of electricity - enough to supply two hours of power to 600,000 homes (equivalent to roughly half the households in Kyiv).

Does DTEK offer advanced energy storage systems in Ukraine?

DTEK selects Fluence to deliver 200 MW advanced energy storage systems in Ukraine. DTEK is a Ukrainian company with advanced and efficient technologies in the European energy market.
