

Large solar glass

Overview

What is solar glass?

Solar glass is similar to transparent solar panels as they it looks a lot like glass panes. The glass has a thin film of solar PV technology over it which can generate electricity from the sun.

Where can Photovoltaic Glass be used?

Our photovoltaic glass has already been installed in a wide variety of buildings in more than 350 projects worldwide. Buildings such as corporate offices, hotels, skyscrapers, airports, railway stations, government buildings, museums, and even historic buildings can benefit from our photovoltaic glass solutions.

Which buildings can benefit from Photovoltaic Glass Solutions?

Buildings such as corporate offices, hotels, skyscrapers, airports, railway stations, government buildings, museums, and even historic buildings can benefit from our photovoltaic glass solutions. Dubai Frame.

What is the Daily melting capacity of Photovoltaic Glass?

Founded in 2007, at the end of June 2024, the daily melting capacity of photovoltaic glass is 19,400T/D, which is the largest production base of photovoltaic glass in China. Founded in 2011. By the end of June 2024, the daily melting capacity of photovoltaic glass is 500T/D. Officially commenced production in June 2020.
