

Latest Luxembourg New Energy Storage Policy

Overview

What are Luxembourg's Energy Policy Priorities?

Since the 2014 IEA review of Luxembourg's energy policies, the country has made progress on its energy sector priorities of ensuring security of supply, promoting energy efficiency, increasing the use of renewable energy and reducing greenhouse gas (GHG) emissions.

What will Luxembourg do in the future?

Citizens and scientists alike have come out in favour of even more ambitious targets and measures for Luxembourg in the future: the Platform for Climate Action and Energy Transition.

How will the LULUCF sector improve carbon management?

Since forests have a significant natural carbon storage potential, the targets for net greenhouse gas removals in the LULUCF sector will be strengthened. In addition, an aid scheme for the sustainable management of private forests, the Klimabonus Bësch, will be established.
