## Overview

---

How much do solar roof tiles cost in the UK?

Solar tiles in the UK cost between £11,000 – £13,500 for the average 2-3 bedroom home while regular solar panels can cost between £6,600 - £8,100. The biggest appeal of solar roof tiles is their aesthetically pleasing design. They blend in with the design of your roof and, therefore, won't disrupt your house style.

Are solar tiles expensive in the UK?

As a relatively new technology in the UK, solar tiles for roof can be fairly expensive. According to Checkatrade.com, they can cost around double what you'd pay for solar panel installation. There are a number of reasons behind this, including the longer installation time as it is a more complicated process.

What are solar roof tiles?

Put simply, solar roof tiles are solar panels that look like roof tiles. They convert energy from the sun into usable electricity with the help of photovoltaic cells. Much like solar panels, they comprise semi-conducting materials that generate an electric charge and send it to an inverter and eventually a home and/or solar battery.

Where are GB Sol Solar PV tiles made?

The solar PV tiles available through GB Sol are manufactured in Wales. The tiles are designed to integrate with not just terracotta roof tiles but slate roofs as well, which can sometimes be more difficult to get planning permission for.
