

Luanda regular solar panel power generation

Overview

Does Angola have a solar energy project?

An agreement for the provision of \$900 million in funding to support the implementation of the Angola Solar Energy Project was reached between Angola's Ministry of Energy and Water and the U.S. Export-Import Bank in June 2023.

Will a 150 MW solar plant help Angola?

An agreement for the development of a 150 MW solar plant was signed between Angola's Ministry of Energy and Water and UAE-based renewable energy company Masdar in Dubai last December. The 150 MW project will produce electricity to power 90,000 homes, contributing to job creation, emissions reduction and efforts to increase national electrification.

How many solar plants are there in Angola?

Angola started operations at two solar energy facilities – the 188 MW Biopio Solar Plant and the 96 MW Baia Farta Solar Plant – in Benguela province in August 2022. The projects were developed by MCA Group with funding provided by the International Bank for Reconstruction and Development (IBRD) and the French Development Agency (AFD).

How will Angola's new solar power plant affect the environment?

The solar facility will mitigate the emissions of 224,000 tons of carbon dioxide while providing employment to 600 people. Developed in phases, the facility will be operational for 20 years and falls in line with efforts by Angola to generate 500 MW of renewable energy capacity by 2025.
