

# Manila Energy Storage Charging Station

## Overview

---

How many EV charging stations are there in the Philippines?

Tell me more! I Agree! MANILA -- The Philippines now has 912 EV charging stations that are publicly accessible as of the end of March, according to the Department of Energy.

What makes Manila a great city for EV charging?

As the bustling capital city of the Philippines, Manila offers a unique blend of historical charm and modernity. With the increasing popularity of electric vehicles, we aim to guide EV owners in finding the most convenient and reliable charging stations across this vibrant city.

What is EV charging infrastructure market in the Philippines?

The Philippines Electric Vehicle (EV) Charging Infrastructure Market is witnessing rapid growth, fueled by the global transition to sustainable mobility and the widespread adoption of electric vehicles.

What is Masinloc battery energy storage?

The Masinloc Battery Energy Storage System (BESS) is the first battery energy storage facility in the Philippines and one of the first in Southeast Asia. We started our venture into battery energy storage technology in 2018 when we acquired this 10 MW system from AES Philippines.
