

Middle East Wind Power Storage

Overview

Is wind energy a business opportunity in the Middle East?

While solar has become a popular avenue for companies in the Middle East due to its solar yield and reliability, wind energy is also becoming an opportunity for business growth. ACWA Power and Envision Energy are developing a 1.1 GW wind farm in Egypt's Suez Gulf region, which has the highest wind potential in the country.

Will Saudi Arabia build a 500MW wind power plant in Morocco?

The Saudi Arabian power producer and developer has signed a joint development agreement with Gotion Power, Chinese battery manufacturer Gotion High-Tech's subsidiary in Morocco, for a 500MW wind power plant with 2,000MWh of battery energy storage system (BESS) technology.

Will Uzbekistan be able to deploy 25GW of solar PV and wind?

Uzbekistan is aiming to deploy 25GW of solar PV and wind by 2030. In addition to its agreement with Saudi Arabia's ACWA Power, the country's government also has a joint development agreement with the UAE's Masdar for 2GW of wind energy and 1,150MWh of battery storage.

What is the outlook for the Middle-East and Africa wind power market?

The Middle-East and Africa wind power market is expected to grow at a CAGR of approximately 12.39% during the forecast period. Factors such as the declining cost of generating wind energy are expected to drive the adoption of wind turbines, which in turn, is expected to increase the demand for wind power during the forecast period.
