

Morocco Outdoor Communication Power Supply BESS House

Overview

What are Morocco's Bess projects?

Morocco's 1.6 GW BESS projects represent a key step in its clean energy ambitions. The facilities will electrify key urban areas and firm up the grid. Although the initial focus is in the northwest, the government aims nationwide. Furthermore, the projects align with Morocco's ambitions to generate 52% of its electricity from renewables by 2030.

Is Morocco preparing to launch a 1.6 GW Bess project?

Morocco is preparing to launch a massive foray into clean energy with its ambitious 1.6 GW BESS projects. The National Office for Electricity and Drinking Water (ONEE) is expected to invite tenders for battery energy storage systems (BESS) totaling nearly 1,600MW.

Which energy companies are launching solar-independent power projects in Morocco?

It recently tendered for solar-independent power projects with battery storage. Riyadh-headquartered Acwa Power led the winning bids for the Noor Midelt 2 and 3 projects, each 400MW of solar with attached BESS. They are part of Morocco's broader clean energy vision.

Can ONEE secure a Bess plant independently?

This is ONEE's first attempt at securing BESS plants independently. Meanwhile, the Moroccan Agency for Sustainable Energy (Masen) is also in contention. It recently tendered for solar-independent power projects with battery storage.
