

# Morocco solar Energy Storage Power Supply Factory

## Overview

---

Does Morocco need a solar power station?

Quarzazate Solar Power Station. As of 2019, renewable energy in Morocco covered 35% of the country's electricity needs.

How many jobs will a battery energy storage project create in Morocco?

The first phase of the project is expected to create over 2,000 jobs. In terms of energy storage projects, Morocco is actively introducing battery energy storage systems (BESS) to complement renewable energy. Several Chinese companies are involved in this.

What is Morocco's largest solar energy project?

Morocco has launched one of the world's largest solar energy projects costing an estimated \$9 billion. The aim of the project was to create 2,000 megawatts of solar generation capacity by 2020. The Moroccan Agency for Solar Energy (MASEN), a public-private venture, was established to lead the project.

How much will Morocco's solar energy project cost?

In November 2009 Morocco announced a solar energy project worth \$9 billion which officials said will account for 38 percent of the North African country's installed power generation by 2020. Funding would be from a mix of private and state capital. The ceremony was attended by U.S. Secretary of State Hillary Clinton and the Moroccan king.
