

New Delhi large capacity solar container battery

Overview

Is India's first regulated utility-scale battery energy storage system online?

India's first commercial regulated utility-scale battery energy storage system (BESS) is now online. The 20MW/40MWh standalone system, developed by IndiGrid, was commissioned in Delhi on April 4.

Who commissioned India's first standalone battery energy storage system?

India's first commercial standalone battery energy storage system (BESS) project with a 20MW/40MWh capacity at the distribution company level and a tariff approved by the electricity regulatory authority has been commissioned by power sector infrastructure investment trust IndiGrid in Delhi.

What is India's largest battery-inverter power system?

Minister Sood called the project a "historic milestone" for both Delhi and India's energy sector, setting a new benchmark in regulatory and technological progress. Developed with support from IndiGrid, GEAPP, and TERI, the system is described as South Asia's largest standalone battery-inverter power setup.

What is India's energy storage capacity?

India's total BESS capacity reached 219.1 MWh as of March 2024, according to Mercom India Research's report, India's Energy Storage Landscape.
