

# **New Delhi schools use 20-foot mobile energy storage containers**

## Overview

---

What is India's 'first commercially approved' energy storage system?

The system is also India's "first commercially approved" utility-scale energy storage system that will ensure improved power supply in different South Delhi areas, covering a population of over one lakh people, said a statement of power discom BRPL (BSES Rajdhani Power Limited).

Which is South Asia's largest battery energy storage system?

Delhi's Power Minister Ashish Sood inaugurated a 20-MW battery energy storage system (BESS) at Kilokari, hailed as South Asia's largest. This commercially approved system will enhance power supply for over one lakh South Delhi residents.

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

## New Delhi schools use 20-foot mobile energy storage containers
