

Nordic New Energy Storage

Overview

What is the largest battery energy storage project in the Nordics?

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower.

How much storage capacity does Seb Nordic energy have?

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality in Finland's Ostrobothnia region, the project is expected to be completed in 2026.

Is there a future battery storage park in Finland?

Computer-generated picture of the future battery storage park in Finland. SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics.

How is digitalisation transforming the Nordic power sector?

Digitalisation is transforming the Nordic power sector, enabling smarter, more efficient, and more resilient energy systems. Advanced digital tools are being deployed across the value chain, from generation and grid operations to market platforms and customer interfaces, enhancing transparency, automation, and responsiveness.

Nordic New Energy Storage

[Emerging technologies in the Nordic energy sector's transition](#)

In this instalment of our Nordic power sector transition series, we explore the emerging technologies in the region's energy transformation. From advanced storage ...

[Nordic Energy Storage Supercapacitor Project: Powering the ...](#)

Why the Nordics Are Betting Big on Supercapacitors a wind farm in Norway generates excess energy during a stormy night, but instead of wasting it, the power gets ...

[The New Grid Balance - Why Battery Storage Is Becoming ...](#)

Why Energy Storage Is Now Critical Infrastructure Energy Storage in the Energy Transition The Nordic electricity system, long anchored by flexible hydropower and stable ...

[Hitachi Energy to Supply Power Conversion for Finland's BESS](#)

Hitachi Energy has signed an agreement with Nordic Electro Power (NEPower) to provide advanced power conversion technology for Finland's largest battery energy storage ...

[Emerging technologies in the Nordic energy ...](#)

In this instalment of our Nordic power sector transition series, we explore the emerging technologies in the region's energy transformation. From advanced storage solutions to nuclear innovation, learn how ...

[Large-Scale Energy Storage: A Future-Proof Nordic Investment](#)

The Nordic region is at the forefront of the global energy transition, with grids increasingly powered by renewable sources. This creates a significant demand for large-scale ...

[Top startups in Energy Storage in Nordics \(Oct, 2025\)](#)

Energy Storage startups in Nordics There are 92 Energy Storage startups in Nordics which include Hexagon Composites, Spirii, Norlys, Aura, Zinus. Out of these, 24 ...

[SEB Nordic Energy invests in major battery storage project](#)

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. The project will ...

[Hitachi Energy and NEPower to equip Finland's](#)

Hitachi Energy has secured a contract from Nordic Electro Power (NEPower) to deliver advanced power conversion solutions for Finland's largest battery energy storage ...
