

Palestine s new solar panel field

Overview

Is Palestine a good place for solar energy?

With 3,400 hours of sunlight per year and an average daily global solar radiation ranging from 6.15 to 8.27 kWh/m², Palestine has a great potential for solar energy. The capacity of rooftop solar systems to produce power in the WB and GS is 534 and 163 MW, respectively.

What is Palestine's energy strategy?

Palestine's approach is to prioritize high-emitting sectors such as, power generation (62 %), transport (15 %), and waste (23 %). The National Adaptation Plan is as: increase the share of renewable energy in electrical energy mix by 20–33 % by 2040, primarily from solar PV. Improve energy efficiency by 20 % across all sectors by 2030.

Does Palestine have a potential for PV power generation?

The System Advisor Model software (SAM) was used to predict the power potentials for a year. The results indicate that Palestine has a significant potential for PV power generation within 1,700 kWh/kWp.

Does Palestine use solar water heaters?

Even though solar water heaters are widely used in Palestine, solar thermal energy only accounts for 8 % of the country's total energy consumption. In WB, 63.1 % of houses had solar water heaters in 2019, while the GS figure was 43.8 % and produced more than 600 GWh.

Palestine s new solar panel field

[Energy, Resilience, and Results: A Public-Private Solar ...](#)

Oct 27, 2025 · In response, the Palestine Investment Fund (PIF) launched the Noor Palestine Solar Program, a public-private initiative aiming to install 200 Megawatts (MW) of solar ...

[Palestine Advances Solar Energy Goals with Landmark ...](#)

Jan 27, 2025 · Palestine is making significant strides toward its renewable energy targets, moving closer to achieving its 2030 objectives. The Palestinian Energy and Natural Resources ...

[IFC Renewable Energy Projects in the West Bank and Gaza](#)

Sep 24, 2022 · The Palestine Real Estate Investment Co's (PRICO) rooftop solar energy facility is IFC's first large-scale solar energy installation in Gaza and is supported by the IFC-Canada ...

[Renewable energy potential in the State of Palestine: ...](#)

Jun 1, 2024 · The main focus of this study, which makes it the most thorough in its sector, is showcasing Palestine's distinct renewable energy potentials (thermal solar, PV, wind, ...
