

Papua New Guinea restricts companies that use solar glass

Overview

Which Papua New Guinea provinces have solar panels?

Explore Our Solar Energy Projects. TAG Energy has installed solar systems in most of Papua New Guinea's provinces and districts, specifically the Southern Highlands Province, Western Highlands Province, Central Province, East New Britain, Autonomous Region of Bougainville, Samarai Murua District, Popondetta, and the National Capital District.

How many people in PNG have electricity?

In the early 2000s, less than 10 percent of PNG's population had access to electricity. In recent years, the PNG government announced an ambitious target to accelerate progress - 70 percent of its people will have access to reliable electricity by 2030.

Is there wind power in PNG?

A recent study by the International Finance Corporation highlighted the enormous potential for wind power in PNG. There are multiple locations in and around Port Moresby and coastal villages of PNG with wind speeds over 10 meters-per-second.

What is the USAID png Electrification Project (PEP)?

Through the USAID PNG Electrification Project (PEP) there are opportunities for U.S. businesses to supply small scale solar products and equipment into the PNG market. Several PNG provincial governments also seek to deliver affordable solar and hydro energy to their constituents. This is a best prospect industry sector for this country.
