

Payment Method for 60kW Off-Grid Solar Containerized Unit in the Community

Overview

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

What is an off grid solar container unit?

Attaching to the grid can also be expensive and this can be an issue in the UK as well as Africa or Latin America. An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

What is an off grid container & how does it work?

Access to a parts supply chain means that systems can be built quickly, efficiently and without compromise in the UK. The Off Grid Container also transports the solar PV panels and mountings, the only part of the product which has to be assembled at the customer's site.

Are off grid solar containers reliable?

Solar equipment is very reliable but occasionally parts may fail so there is need to monitor and solve any problems. Off Grid Solar container units guarantee security and reliability and allow the engineering team to complete installations in a few days rather than weeks.
