

Portugal Off-Grid Solar Container 20MWh

Overview

Is Portugal a good place to invest in solar energy?

Portugal is widely recognized as a European leader in renewable energy adoption, and projects like the Alcoutim solar park further highlight the country's commitment to sustainability and energy independence. The region benefits from abundant sunshine year-round, making it an ideal location for large-scale solar generation and now, energy storage.

What is a 5mw/20mwh Bess project?

A 5MW/20MWh BESS project Powin and Hitachi deployed for Galp in Portugal. Image: Powin / Hitachi / Galp. Galp has kicked off construction on five new battery energy storage system (BESS) projects in Spain and Portugal, marking a major step in its clean energy strategy.

Will Galp's Bess projects play a role in the Iberian grid?

This builds on Galp's earlier 5MW/20MWh project in Portugal, developed with Powin and Hitachi before Powin entered administration. With the ability to deliver multiple ancillary services, Galp is positioning these BESS projects to play a pivotal role in the Iberian grid as renewables expand.

Why is powin launching a storage platform in Portugal?

This project holds additional significance as it marks Powin's first operational project in Europe. The Portland, Oregon-based firm brings to Portugal its innovative storage platform and experience from other large deployments around the world, aligning with European goals for decarbonization and clean energy infrastructure.
