

Price of large silicon wafer solar panels

Overview

How much does a non Xinjiang wafer cost?

Currently, non-Xinjiang wafers with traceability data generally carry a quoted premium of RMB 0.15–0.2/pc. Starting February 2025, spot price updates for 183mm n-type wafers in dollar terms will be introduced. The high prices for M10 PERC and TOPCon cells is based mostly on those of Southeast Asian origins.

How much does non Xinjiang polysilicon cost?

Currently, non-Xinjiang polysilicon with traceability data generally carries a quoted premium of RMB 3–5/kg. Polysilicon prices in dollar terms are prices for polysilicon with non-China origins in dollar terms, not translated from RMB prices.

How much does n-type granular silicon cost?

On average, the transaction price for n-type dense polysilicon reached RMB37,100/ton, up 6.92% week-on-week. The transaction price range for n-type granular silicon was RMB34,000-37,000/ton, with an average transaction price of RMB35,600/ton, a 6.27% increase from the previous week.

How much does n-type dense polysilicon cost?

According to the latest pricing data from the Silicon Industry Branch, released on 9 July, the transaction price range for n-type dense polysilicon has oscillated between RMB34,000-38,000/ton (US\$4,741-5,299/ton). On average, the transaction price for n-type dense polysilicon reached RMB37,100/ton, up 6.92% week-on-week.

Price of large silicon wafer solar panels

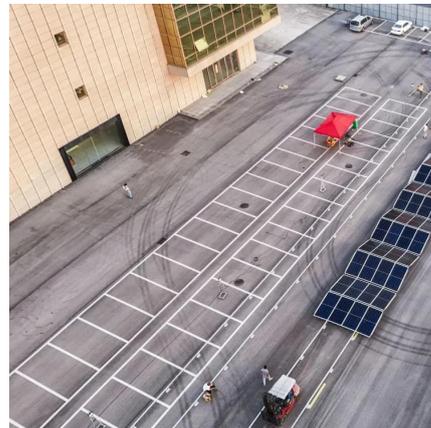

[Comprehensive Solar Market Pricing Report: ...](#)

Apr 14, 2025 · Explore our in-depth analysis of the latest solar industry trends. This report covers price movements for polysilicon, wafers, cells, and modules, offering insights into market ...

[Solar Silicon Wafer Market , Global Market Analysis Report](#)

Aug 11, 2025 · The solar silicon wafer market occupies a targeted yet critical share across several supply and equipment value chains. Within the solar photovoltaic module components market, ...

[Solar wafer prices decline 22.78% since April peak](#)

Jun 6, 2025 · Solar wafer prices decline 22.78% since April peak In a new weekly update for pv magazine, OPIS, a Dow Jones company, provides a quick look at the main price trends in the ...

[What is the cost of silicon solar cell?](#)

Sep 15, 2023 · The silicon wafer itself--the thin slice of crystal--accounts for approximately 56% of the total cost of a finished solar cell. This makes the wafer the most significant cost driver in ...
