

Price of solar panels installed on rooftops in Malaysia

Overview

How much does a solar panel installation cost in Malaysia?

A typical residential solar panel system in Malaysia is 6.6kW and a good quality installation will cost between RM18,500.00 up to RM30,000.00. But why the big difference in cost?

Whether a 6.6kW system is an appropriate size installation for you or not is a good question and will depend on your electricity usage.

Can solar panels save money in Malaysia?

The Malaysian government, through programmes such as Net Energy Metering (NEM) scheme, allows solar panels owners to sell excess energy back to the grid, reducing electricity costs further. Additionally, tax incentives may be available for those who install solar panels, which can significantly reduce the overall cost.

Should you buy a solar panel system in Malaysia?

Solar panels offer a sustainable, long-term solution for reducing electricity bills while contributing to a cleaner environment. Before making the leap, it is important to understand the full cost of owning a solar panel system in Malaysia.

Are solar panels rethinking energy strategies in Malaysia in 2025?

With solar panels now more affordable than ever in Malaysia, businesses and homeowners are rethinking their energy strategies in 2025. The new electricity tariff structure implemented July 1, 2025, combined with enhanced Self-Consumption (SelCo) programme benefits, has made solar panel installation in Malaysia more attractive than ever.
