

Production license is required for the production of solar container lithium battery packs

Overview

What are the new regulations on lithium phosphate batteries?

One part of the newly announced restrictions surrounds the battery cathode production technology for the making of lithium iron phosphate (LFP) batteries, a type of lithium-ion battery that has become increasingly popular in EVs in the last five years for its lower price and greater safety.

Why has China imposed export restrictions on EV batteries?

China has put export restrictions on technologies critical for producing electric vehicle batteries, in a move to consolidate its dominance in the sector that has contributed to the country's lead in the global EV race.

How will tightening regulations affect the battery supply chain?

It is therefore expected that the latest round of tightening regulations on technology export for cathode, lithium processing, and lithium refining will have a significant impact on the battery supply chain globally, in particular, on joint ventures, technology licensing or technical service arrangements.

What's new in China's Lithium-ion battery industry?

BEIJING, June 19 -- China's Ministry of Industry and Information Technology on Wednesday unveiled revised guidelines for the lithium-ion battery industry to further strengthen standardized management and promote the high-quality development of the sector.

Production license is required for the production of solar container

[China revises guidelines for lithium-ion battery industry](#)

Jun 19, 2024 · The lithium-ion battery enterprises and projects should comply with laws and regulations on national resource development and utilization, ecological environmental ...

[China puts new restrictions on EV battery technology in ...](#)

Jul 18, 2025 · China has put export restrictions on technologies critical for producing electric vehicle batteries, in a move to consolidate its dominance in the sector that has contributed to ...

[How will you be affected by China's battery technology ...](#)

Jan 10, 2025 · It is therefore expected that the latest round of tightening regulations on technology export for cathode, lithium processing, and lithium refining will have a significant impact on the ...

[China Issues Mandatory Industry Standard for Lithium-Ion Battery](#)

On May 13, 2025, China's Ministry of Emergency Management has issued a new mandatory industry standard, AQ 7017-2025, titled " Safety Code for Lithium-Ion Battery Production." The ...

[Facing Issues with Lithium Battery Exports? Latest ...](#)

Sep 20, 2024 · Navigate the complexities of lithium battery export with our comprehensive guide. Understand UN numbers, international regulations, customs requirements, and dangerous ...

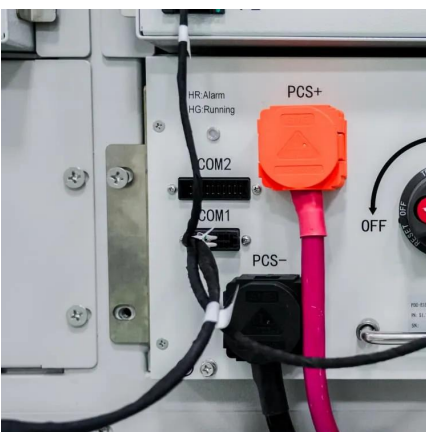

[How to Import Solar Lithium Batteries from China? . SolarCtrl](#)

Apr 21, 2025 · This article will walk you through the market overview, key considerations, and a step-by-step import guide to help your business successfully import solar lithium batteries from ...

[What Are China's Lithium Battery Export Regulations and ...](#)

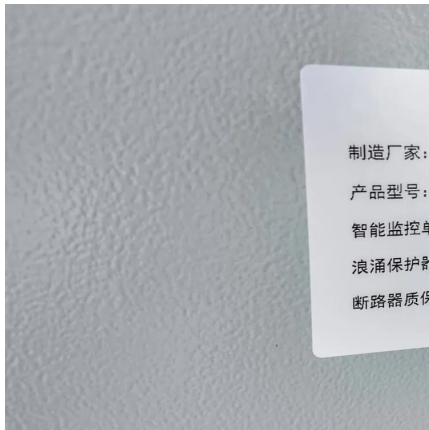

Mar 17, 2025 · China's lithium battery export regulations ensure product safety, environmental protection, and compliance with international standards. Exporters must meet certifications like ...

[Solar Power Energy Storage Lithium Battery Production Process](#)

Dec 11, 2023 · The production process involves several steps, including raw material selection, mixing, coating, and drying, cell assembly, electrolyte injection, formation and ageing, and ...

[Compulsory Chinese certification of Li-ion batteries](#)

Apr 3, 2023 · The Chinese State Administration for Market Regulation (SAMR) has now implemented mandatory certification requirement for Lithium-ion batteries, Battery Packs, ...
