

# **Qatar solar container outdoor power Operation**

## Overview

---

How many solar PV projects are there in Qatar?

The installed capacity of solar power generation in Qatar was recorded as 5.1MW, as of 2020, which is far from the required targets to have a considerable share of renewables in the energy mix. Thus umpteen solar PV projects are lined up to boost the capacity in the nation.

Is Qatar a good place to develop solar energy?

Qatar boasts the ideal conditions for developing solar energy with its exceptional sunshine and vast unoccupied spaces. This is where the Al Kharsaah solar power plant, developed by TotalEnergies and its partners QatarEnergy and Marubeni, was inaugurated in October 2022.

Why is Qatar launching a solar power plant in 2022?

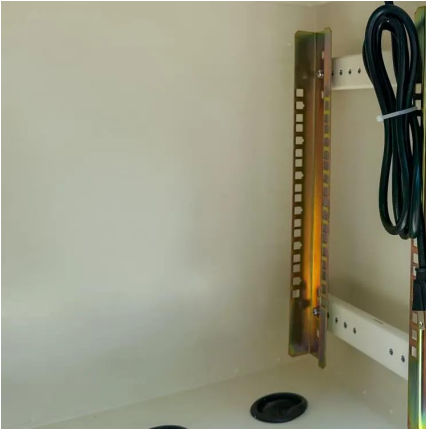

The plant's inauguration in October 2022 marked a critical moment in Qatar's shift toward renewables, and it is expected to play a key role in the nation's energy transition strategy. Qatar's vast desert landscape, coupled with its abundant sunshine, makes it an ideal location for solar energy development.

What does the Al Kharsaah solar PV project mean for Qatar?

The Al Kharsaah Solar PV project represents a turning point in Qatar's energy history, and signals the beginning of a broader transition toward renewables that is likely to accelerate in the coming years.
