

Saudi Arabia s solar energy storage policy price

Overview

Saudi storage projects are priced between USD 73/kWh & USD 75/kWh, compared to global average of USD 165/kWh in 2024, lowering battery storage costs outside China. Could a power purchase agreement make large-scale solar projects viable in Saudi Arabia?

Saudi scientists have determined the current price threshold for power purchase agreements (PPA) that could make large-scale PV and wind power projects viable in Saudi Arabia. They incorporated data from the 300 MW Sakaka solar farm and four potential utility-scale PV project sites.

How much solar power does Saudi Arabia have?

The country currently has around 190 MW of installed solar capacity, according to Apricum. In May, Saudi Arabian developer ACWA Power won a bid to develop 110 MW of floating solar in water reservoirs, 50 MW on the island of Sumatra, and 60 MW on Java.

Do tariffs make solar projects economically unviable?

They incorporated data from the 300 MW Sakaka solar farm and four potential utility-scale PV project sites. Researchers at King Abdulaziz University have conducted a techno-economic analysis for utility-scale wind and solar plants in Saudi Arabia and have found that current tariffs make projects economically unviable.

How much does a solar PV plant cost?

“The Sakaka solar PV plant operates under a 25-year PPA with an electricity price of \$23.40/MWh, while the Dumat Al Jandal wind farm has a 20-year PPA with an electricity price of \$21.30/MWh,” the researchers said, acknowledging that technical and financial details for the plants are not fully available.

Saudi Arabia s solar energy storage policy price

Saudi Arabia's Renewable Energy Policies and C& I Energy Storage ...

Sep 12, 2025 · This article compares Saudi Arabia's latest renewable energy policies with regional peers, forecasts C& I energy storage trends through 2030, and highlights industry-specific case ...

[Scenario analysis of Saudi Arabia's residential solar energy ...](#)

Oct 1, 2025 · The residential sector in the Kingdom of Saudi Arabia accounts for 48 % of the total generated electricity. This study focuses on reducing residential energy demand by promoting ...

[Energy Transition in Saudi Arabia: Key Initiatives and ...](#)

Jan 11, 2022 · Two key energy policies to tackle change are: energy efficiency and renewable energy. Within this context, this analysis intends to: (1) explore the ongoing energy transition in ...

[Solar Energy Storage Market Booms in Saudi Arabia](#)

Apr 24, 2025 · In summary, Saudi Arabia's solar energy storage sector is set for significant growth, driven by supportive policies, technological progress, and evolving consumer ...

[Solar PPAs viable in Saudi Arabia at prices above \\$26.10/MWh](#)

Jan 17, 2024 · Saudi scientists have determined the current price threshold for power purchase agreements (PPA) that could make large-scale PV and wind power projects viable in Saudi ...

[Distributed PV systems in Saudi Arabia: Current status](#)

Sep 1, 2024 · The growth of distributed solar PV, including rooftop installations on buildings, is expected to accelerate due to increasing retail electricity costs and the rising support of ...

[MENA Solar and Renewable Energy Report](#)

May 13, 2025 · Introduction Renewable energy usage has been growing significantly over the past 12 months. This trend will continue to increase as solar power prices reach grid parity. In 2019, ...

Saudi Arabia Battery Storage Pricing at \$73/kWh Reshapes Global Energy

Sep 8, 2025 · At \$73/kWh, Saudi Arabia's Battery Storage Bids Reset Expectations The latest news from Saudi energy storage projects with bids between USD 73/kWh and USD 75/kWh, ...

[Saudi Arabia's demand for energy storage solutions is ...](#)

Aug 20, 2025 · Saudi Arabia has a vast potential for large-scale photovoltaic and storage projects, and under its leadership, the Middle East energy storage market is entering a phase of rapid ...

[Saudi Arabia: PV + Storage's next destination for overseas ...](#)

Sep 29, 2024 · Among them, Middle Eastern countries such as Saudi Arabia, the United Arab Emirates, and Egypt have clarified their new energy development goals and introduced ...
